- Leadership

PROFESSIONAL SUMMARY

I am a dedicated and detail-oriented Full Stack Developer with a strong academic background and hands-on experience in designing, developing, and deploying modern, scalable, and responsive web applications. I am proficient in both front-end and back-end development, with a consistent emphasis on writing clean, maintainable, and efficient code. I actively stay current with evolving technologies and industry standards to deliver reliable and innovative software solutions that address complex, real-world needs.

TECHNICAL SKILLS

FRONT-END:

- HTML, CSS, JavaScript
- React.js, Bootstrap, Tailwind CSS
- UI/UX principles, Figma prototyping

BACK-END:

- Java, Python
- ASP.NET Core (C#)
- PHP, C++, C#

DATABASES:

- MySQL, SQL Server

TOOLS AND PLATFORMS:

- Git, GitHub
- Postman, Docker
- WordPress
- Odoo
- AWS (Cloud Services)

PROJECTS

FORSA JADIDUH – RECRUITMENT MANAGEMENT SYSTEM

is an e-recruitment platform that connects graduates with job opportunities and strengthens communication between employers and educational institutions.

Role: Team Leader. Led the development team, developed the user interface using React, and contributed to backend development using ASP.NET.

E-LEARNING PLATFORM – RECRUITMENT MANAGEMENT SYSTEM

An online platform for delivering lessons and organizing educational content, allowing interaction between students and teachers through a clean and user-friendly interface.

Technologies: HTML, CSS, JavaScript, Python

COFFEE APP

A simple web application for browsing coffee menus and placing orders from local cafes, with a fully responsive design and smooth user experience.

Technologies: HTML, CSS, JavaScript

PERSONAL PORTFOLIO WEBSITE

A responsive portfolio website showcasing my resume, projects, and contact form. Built with modern design practices to ensure a smooth experience across devices.

Technologies: React, Tailwind CSS
